This is a guide to help you visualise the colour and is not an exact representation. The final result may vary depending on your room's lighting, wall texture, the finish you choose, and your screen's colour settings.

ABOUT THIS COLOUR

Tomcat is a warm, muted beige with undertones of earthy taupe and light khaki. It recalls natural materials like weathered stone or dry terracotta, but in a sophisticated, calming way. This shade does not scream for attention; instead, it provides a comforting backdrop. It whispers of settled confidence and timeless elegance. Tomcats evokes the feeling of a slow Sunday morning, sunlight filtering through sheer linen...

Calmness, serenity, timelessness, natural warmth, grounding.
