This is a guide to help you visualise the colour and is not an exact representation. The final result may vary depending on your room's lighting, wall texture, the finish you choose, and your screen's colour settings.

ABOUT THIS COLOUR

Mud Pot is an earthy neutral, a muted blend reminiscent of dried river sediment or damp clay. It possesses a grounding sophistication, far removed from stark grays or dull browns. This shade brings a quiet confidence to a room, acting as a perfect backdrop that allows architectural features and artwork to take center stage. It evokes feelings of calm stability, comforting permanence, and natural shelter.

Calmness, groundedness, sophistication, comfort, natural retreat.
